PROFILE SUMMARY

Full Stack Developer with hands-on experience building production-grade SaaS platforms using Next.js, React.js, Node.js, PHP, and PostgreSQL. Proven track record of shipping real-world features under live-traffic conditions — from REST API integrations and role-based dashboards to performance optimisation and responsive UI. Strong focus on clean architecture, reusable component design, and measurable delivery.

EDUCATION

Master of Computer Application (MCA)

2024 – 2026

ISTAR – CVM University | SEM-1: 7.50 · SEM-2: 8.40 · SEM-3: 8.70 · CGPA: 8.53

Bachelor of Computer Application (BCA)

2020 – 2023

SECOM – CVM University | CGPA: 8.32

TECHNICAL SKILLS

Primary Stack	Next.js, React.js, Node.js, Express.js, PHP, PostgreSQL
Proficient	JavaScript (ES6+), PHP
Familiar	Python, Java, C++
Frontend	HTML5, CSS3, Tailwind CSS, Bootstrap, REST APIs, AJAX
Databases	PostgreSQL, MongoDB, MySQL
Tools	Git, GitHub, VS Code, Postman, phpMyAdmin, Vercel
Concepts	OOP, DSA, MVC, Responsive Design, API Integration, Performance Optimisation
Exploring	TypeScript, Docker, AWS basics

EXPERIENCE

Full Stack Developer Intern | Seaneb Technologies

Dec 2025 – Apr 2026

Next.js · React.js · Tailwind CSS · REST APIs · MySQL · Git

- Built and shipped property listing, dashboard, and user-profile modules for a **live Next.js platform** serving active business clients.
- Reduced perceived page-load time by implementing **lazy loading, dynamic imports, and SSR** strategies in Next.js — improving Core Web Vitals scores.
- Integrated **10+ REST APIs** for real-time property data, authentication, plan management, and analytics.
- Refactored shared UI components into a reusable library, **cutting duplicate code by ~40%** and accelerating feature delivery across modules.
- Resolved production bugs under live-traffic conditions using Git branching and structured code-review workflows.
- Improved mobile responsiveness across all modules with **Tailwind CSS**, achieving consistent UX on all screen sizes.

PORTFOLIO WEBSITE

Personal Portfolio

Next.js · Tailwind CSS · Vercel | In Progress

Live URL: meghpandya.dev ← **UPDATE when deployed**

- Building a **personal portfolio** to showcase projects, skills, and professional experience with a modern, responsive design.
- Designed and developed using **Next.js App Router**, **Tailwind CSS**, and deployed on Vercel for optimal performance.
- Includes live project demos, GitHub links, and a contact section — centralising all professional presence in one place.

PROJECTS

Seaneb Real Estate Platform

Next.js · React.js · Tailwind CSS · REST APIs · MySQL

Live: seaneb.com ← **UPDATE** | GitHub: github.com/megh-pandya/SEANEB-REAL-ESTATE-1 ← **UPDATE**

Live multi-role web platform for property search, listing management, and business operations

- Developed interactive dashboards with **real-time data refresh** and role-based access control for clients, agents, and admins.
- Implemented optimised routing and rendering patterns, reducing navigation time and improving Core Web Vitals scores.
- Achieved consistent responsive layouts across all device sizes using Tailwind CSS utility-first approach.

Attendance Management System

PHP · MySQL · phpMyAdmin

GitHub: github.com/megh17/attendance-system ← **UPDATE**

Full-featured web application automating attendance tracking for Admin, Faculty, and Student roles

- Built secure role-based login and access control with separate dashboards for all three user types.
- Developed report generation, student data management, and **daily-use export modules** consumed by faculty.
- Optimised MySQL queries with proper indexing, **reducing average query response time** and ensuring data integrity.
